About

Center for Wound Healing at Saint Anne's Hospital

Advanced care for non-healing wounds for patients of all ages

Every year, chronic wounds caused by diabetes, poor circulation, or other conditions keep millions of Americans from doing the things they love to do. The Center for Wound Healing at Saint Anne's Hospital can help and heal. They offer a comprehensive treatment program for patients of all ages, utilizing techniques from a team of the experienced medical staff, including wound care specialists, surgeons, and registered nurses with specialized wound and ostomy certification. They can design and deliver individualized treatment plans in conjunction with each patient's referring physician. Together, the Center for Wound Healing team works to help patients of all ages recover from such conditions as diabetic/neuropathic wounds, wounds resulting from trauma, vascular wounds/lower leg ulcers, pressure ulcers/bedsores, surgical dehiscence, cancer wounds and other non-healing wounds.
