Morton Hospital Childbirth & Parenting Education

Class Descriptions

Morton Hospital's Parent and Family Education Program invites you to participate in our classes, which are designed to help today's families meet the challenges of parenting. Our programs are family-oriented and focus on the changes impacting all family members. Class sizes are limited to ensure individualized attention, so we encourage you to register early to avoid disappointment.

Childbirth Education (Preparation For Childbirth)

The 5-week Preparation for Childbirth class focuses on preparing you for labor and delivery. The more knowledgeable you are about the birth process, the more rewarding you are likely to find the experience. As you progress through the prepared childbirth classes, you will have an opportunity to actively plan your labor and delivery as you learn about the birth options available to you.

Prepared childbirth classes include a range of topics such as diet, exercise, prenatal care, relaxation and breathing techniques, the stages of labor and newborn care. You will also have an opportunity to tour the Obstetrics unit. Classroom teaching consists of films, demonstrations and discussions. Must start at week one.

Weekend Preparation For Childbirth

This class condenses the content of the 5-week Preparation for Childbirth Class into two class days. It is designed for new parents who are limited in their time. Parents will gain an understanding of the birth process, relaxation and breathing techniques, the stages of labor, and newborn care. The class includes a tour of the Maternity Unit at Morton Hospital.

Private Childbirth Classes

Available upon request. Please call for additional information.

Ready for Delivery

Ready for Delivery is a workshop designed for parents who are limited in their time, or who have had a previous birth and are looking for a review/refresher course. This three-week series will offer information on labor and delivery, breathing, pain management, and information on the last trimester, including the birth process. Must start at week one.

Infant Care

This two-hour class is designed for new parents to answer questions and concerns regarding the care of a newborn. Discussions include basic newborn care, family adjustment, common problems in the newborn period, and when to call the Pediatrician.

Feeding Your Baby

This is a couple's class designed to empower parents to make an informed decision about infant feeding. It is led by a Certified Lactation Specialist. This class teaches mothers and fathers about the importance of breast-feeding, how to do it, and the importance of the role fathers play in the experience. It also discusses ways to easily incorporate breast-feeding into everyday life.
